## Factory

Area: 39/3 North, Industrial Zone A1,  
10th Of Ramadan City,  
Egypt.

CITY GLASS

PREMIUM

SINCE 1986

# Introduction

City Glass was established in 1986 with target to rythem with daily occasions for all needs, giving varity of options for all tastes. All they have plenty of products and designs.

Product and packaging design, mold manufacture, manufacturing and decoration as well as marketing and distribution, all play complementary roles to present global standrads of packed products, each step of glass production is monitored by quality team to assure the best is achieved.

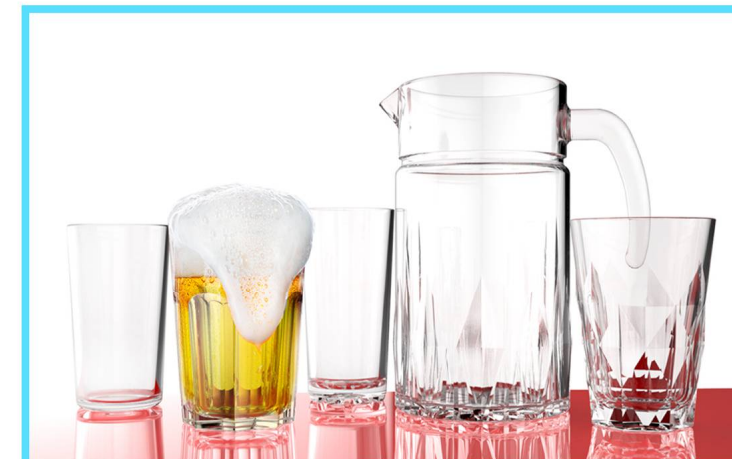

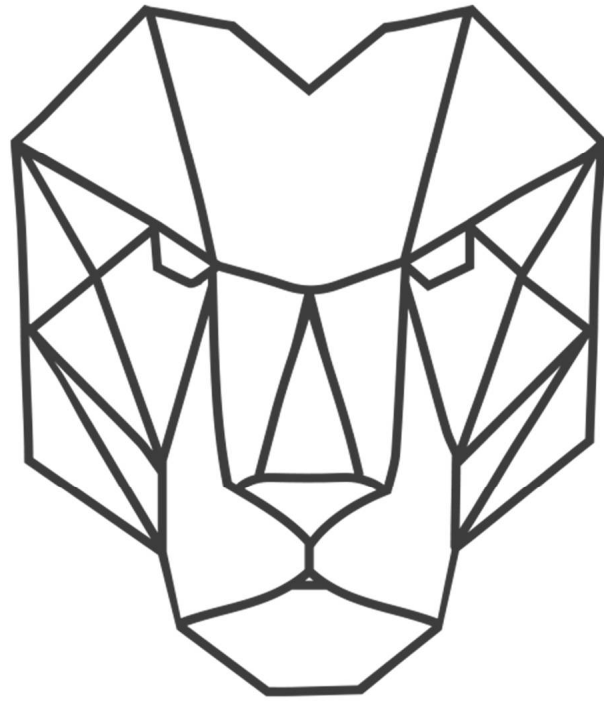

## Where We Stand

It's a conglomerate that includes two factories with their full facilities, 14 production lines with production of 4000 tons per month of packed glass tableware, located in 10th of Ramadan, Industrial city, Egypt.

## Our Story

City Glass was first established in 1986 with a mission to produce high quality glass products made of premium quality materials of sodalime glass with the use of latest technology. It consists of factories with various production types from handmade, half automated and automated press. These types of products made from simple till highly exquisite and contemporary decorative products.

# ALEX JARS

Alex Jars are one of our best sellers, the variety of sizes we introduce covers most of our customer's needs, there is nothing more healthier than using glass as a container for a lot of our everyday foods and snacks.

We studied the needs of our customers and redesigned our cover to be elastic enough to hard seal the jar and also easy to open and use.

With our newly designed cover, we present a perfectly sealed jar that could contain very large varieties of food from jams to liquids.

# Jugs And Sets

We believe in making it easier for people to group, that what we put in our mind when we started crafting jugs and match them into sets.

we currently have an amazing variety of sizes and capacities to serve a wide range of groups, ranging from 1.0 L to 1.75 L in capacity, Our collection should have match for every taste

# TANGO

Introducing our newly amended Jug cover, we tend to keep the stability of the cover the same, but with a much more strong plastic.

we used our finest plastic to produce to our customer a nearly 100 % transparent material to match the clarity of our beautiful, well crafted glass.

We kept the material at the same old weight but redesigned it smart enough to add more capabilities to the cover.

# Mugs And Sets

Mugs is something we use everyday, something we get attached to, we can never mention mugs without an image of a sunny morning hovering over our minds.

That is the concept that we put in our mind when designing and crafting a piece of glass that would become someone's favorite part of the day.

BULK

In life we have priorities, health comes first in line, so talking about food storing is vital, therefore we need to be very picky choosing storing products, and here is when city glass comes to wash all your concerns. Best glass quality easy for daily use and also microwave safe. Not to forget that it's perfectly sealed and colorful.
