# Introduction

In 1986 City Glass lit the torch of development in the sky of the glass industry, and since that day the map of glass industries in Egypt and the Middle East has changed. In City Glass, we are certain that our industries stem from the heart, so you always see the difference in our products, and we also believe that the trust relationship between us and our customers is always our capital, which supports us and always pushes us forward. In City Glass, we are always proud of our Egyptianness. Our industry takes place on Egyptian lands and with Egyptian hands, to show the whole world that our Egyptian identity is reflected in our industry.

## ■ OUR VISION

**Our vision** We always look forward to leadership in the field of glass industry, and to be present in each and every corner around the globe while providing opportunities for expected successes for all its employees.

## ■ OUR MISSION

**City Glass** was established in 1986 with the aim of leadership in the field of glass manufacturing. Since the first day, we in City Glass have taken upon ourselves the goal of developing the industry in Egypt and the Middle East. We use the latest types of equipment in our factories. We rely on technology and therefore we rely on fully automated machines. The latest model, and this is what helps us to produce more modern products and convert them from simple products to high-quality and modern products that suit the speed of progress and development of that industry.

## ■ OUR GOALS

**Our goals** Focus on productivity associated with the highest quality • Work to achieve greater achievements with a focus on the interests of our customers, shareholders, suppliers and employees.

## ■ WHY CITY GLASS?

Working together to develop a category-specific activation plan and organise store operations.  
Increasing revenue through activating levers to improve commercial performance.

## ■ PRODUCT innovation

Product innovation and development is not limited only to the external appearance, but innovation and development depends on other factors such as developing machines and manpower and investing in them, to chart a new path that includes the development of all the common factors in the glass industry, starting from the human factor until reaching the technological factor. As a result, we ensure the growth of efficiency and quality, which increases the confidence building of our customers.

## ■ Drive Sustainability

Our company adopts the strategy of sustainable growth as a long-term strategy, so we provide innovative solutions towards different and integrated packaging for a better experience for our customers, so we have used environmentally friendly materials, because of our great experience in the field of glass industry for decades in a row, we have made sure that there is no other packaging better than that. What we do, our experience is different and distinctive. We rely on environmentally friendly products and give you a look at the same time distinctive and genius.

**City Glass** gives you a completely different and special experience.

SIMPLE,  
**STYLISH**  
AND  
INTELLIGENT

We understand that our clients work on longer plans and our contribution must fit and be ready for use in time. Delivering in a realistic time frame is how we secure project goals, quality and success.

## OUR VALUES

City Glass committed to work according to professional standards; we have obtained certification in:

- 1) Quality Management (ISO 9001:2008).
- 2) Occupational Health & safety Management system (OHSAS 18001:2007).
- 3) Environmental Management System (ISO 14001:2004).
- 4) Social Accountability International (SA8000).
- 5) Food safety management (ISO 22000).

## Quality Assurance

City Glass is distinguished by providing an integrated service that starts from relying on the best raw materials, then understanding the product well and creating a modern design that combines luxury and beauty, then the manufacturing stage in which we rely on the best possible factors to produce a high-quality product, and then the most important stage is Safe delivery of our products in the right way and at the right time.

As for quality, we care about it even before manufacturing, by searching for the best available raw materials, because we always strive in City Glass to make our products perfectly complete and free from any defects, we build a relationship of love between products and customers,

Therefore, the focus since the first day was on quality, and repeating the testing and inspection processes in the company's laboratories, and by the way, those tests are complex and large to ensure that there are no defects, and quality is not only related to the manufacture of the product, there are also other product tests. In every process the product goes through until the delivery stage, rigorous tests are done to ensure safe and timely delivery.

## WHY CHOOSE US ?

A question always asked?  
Let us show you an answer to that question,
